Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

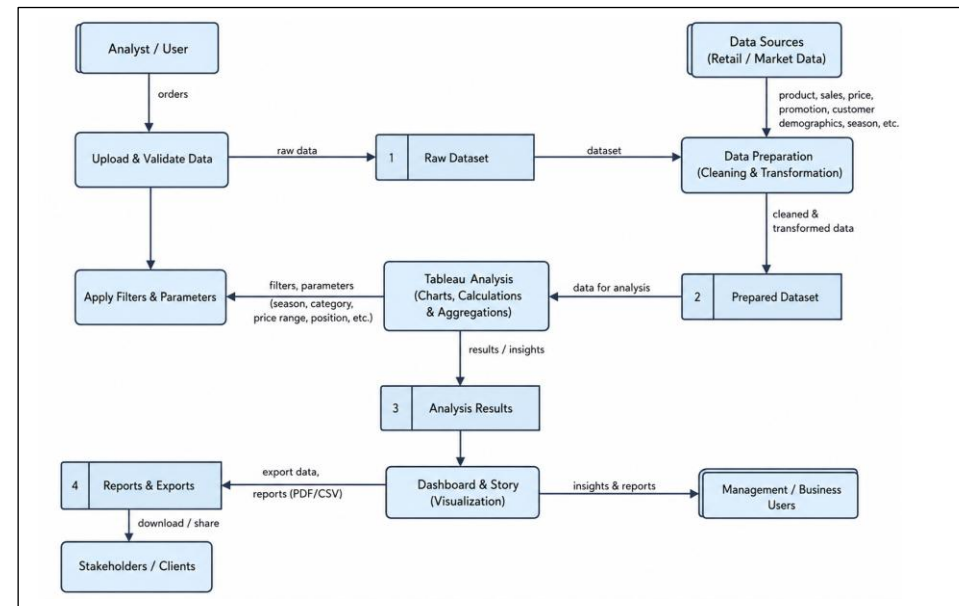

Example: (Simplified)

User Stories

Use the below template to list all the user stories for the product.

Example: Data flow Diagram

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
Business Analyst	Dashboard Overview	USN-1	As a Business Analyst, I want to access the dashboard to monitor overall product placement performance.	Dashboard loads successfully with all visualizations.	High	Sprint-1
Business Analyst	Product Category Analysis	USN-2	As a Business Analyst, I want to compare average sales volume across different product categories.	Category-wise sales chart is displayed correctly.	High	Sprint-1
Business Analyst	Product Position Analysis	USN-3	As a Business Analyst, I want to analyze how product placement positions affect sales.	Product position analysis chart is available.	High	Sprint-1
Business Analyst	Seasonal Sales Analysis	USN-4	As a Business Analyst, I want to compare sales performance across different seasons.	Seasonal sales visualization is displayed correctly.	Medium	Sprint-1
Marketing Manager	Competitor Price Analysis	USN-5	As a Marketing Manager, I want to compare competitor prices with our product prices.	Competitor price comparison chart is displayed successfully.	High	Sprint-2
Marketing Manager	Consumer Demographics	USN-6	As a Marketing Manager, I want to analyze customer demographics and purchasing behavior.	Consumer demographics chart is available.	Medium	Sprint-2
Store Manager	Foot Traffic Analysis	USN-7	As a Store Manager, I want to evaluate the relationship between foot traffic and average sales volume.	Foot traffic vs average sales visualization is displayed.	High	Sprint-2
Product Manager	Product Pricing Analysis	USN-8	As a Product Manager, I want to compare product categories based on average product prices.	Product category vs price chart is displayed correctly.	Medium	Sprint-2

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
Marketing Manager	Promotion Impact Analysis	USN-9	As a Marketing Manager, I want to evaluate the impact of promotional campaigns on product price and sales volume.	Promotion impact visualization is available.	High	Sprint-3
Management	Interactive Dashboard Filters	USN-10	As a Management user, I want to filter dashboard data by product category, product position, and season.	Dashboard updates dynamically based on selected filters.	High	Sprint-3
Administrator	Tableau Dashboard Publishing	USN-11	As an Administrator, I want to publish the Tableau dashboard online for stakeholders.	Dashboard is successfully published and accessible online.	Medium	Sprint-3
Administrator	Flask Web Integration	USN-12	As an Administrator, I want to embed the Tableau dashboard into the Flask web application.	Dashboard loads successfully inside the web application.	High	Sprint-3
