Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- ☐ Solve complex problems in a way that fits the state of your customers.
- ☐ Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- ☐ Sharpen your communication and marketing strategy with the right triggers and messaging.
- ☐ Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- ☐ **Understand the existing situation in order to improve it for your target group.**

Project / Vision: **Strategic Product Placement Analysis**

1. CUSTOMER SEGMENTS CS Who are our customers? - E-commerce businesses - Retail store managers - Marketing teams - Sales managers - Business analysts - Product managers 2. JOBS-TO-BE-DONE / PROBLEMS J&P What job(s) is the customer trying to get done? - Place the right products in the right position - Increase product visibility - Improve customer engagement - Increase sales and conversions - Identify high-performing products and categories - Understand customer behavior and preferences 3. TRIGGERS TR What triggers the customer to start looking for a solution? - Declining sales - Low product visibility - Low customer engagement - High competition - Need to improve conversion rate - Pressure to increase revenue 4. EMOTIONS: BEFORE / AFTER EM Before: - Frustrated due to low sales - Confused about product placement - Unsure about customer preferences - Worried about poor performance After: - Confident in placement decisions - Improved customer satisfaction - Better engagement and conversions - Achieve business growth	6. CUSTOMER CONSTRAINTS CC What constraints are keeping the customer from doing the job to be done? - Limited data insights - Large and complex data - Lack of analytical tools - Limited technical knowledge - Budget and resource constraints 9. PROBLEM ROOT CAUSE RC Why is the customer struggling to get the job done? - No data-driven placement strategy - Poor use of sales and customer data - Lack of analytics and visualization - Decisions based on intuition - No clear understanding of customer behavior 10. YOUR SOLUTION SL What is your solution that helps the customer get the job done? - Collect and integrate data from multiple sources - Clean, process and analyze data - Identify best-performing products and placements - Provide insights through interactive dashboards (Tableau) - Recommend optimal product placement strategies - Help improve visibility, engagement and sales	5. AVAILABLE SOLUTIONS AS What solutions are available today to solve the jobs? - Manual product arrangement - Excel reports and basic dashboards - Past experience and guesswork - Simple sales reports - Third-party tools with limited features 7. BEHAVIOUR BE How is the customer currently trying to solve the problem? - Check sales reports manually - Arrange products based on experience - Run marketing campaigns without proper analysis - Review performance at the end of the month - Make decisions based on assumptions 8. CHANNELS OF BEHAVIOUR CH Where does the customer go to get the job done? - E-commerce websites - Mobile apps - Physical retail stores - Business dashboards - Excel / Reports - CRM / ERP systems
